

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	29 June 2026
Team ID	
Project Name	Library Book Request System using ServiceNow
Maximum Marks	4 Marks

Functional Requirements

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Book Request	Student can submit a library book request through the ServiceNow form.
FR-2	Issue Date Validation	System validates that the issue date is not in the past.
FR-3	Request Number Generation	System automatically generates a unique request number (e.g., LIB1001).
FR-4	Email Notification	System sends an email notification to the librarian when a request is submitted.
FR-5	Request Management	Librarian can view and manage all submitted book requests.
FR-6	Record Storage	System stores all request details securely in the Library Book Request table.

Non-functional Requirements

NFR No.	Non-Functional Requirement	Description
NFR-1	Usability	The application should have a simple and user-friendly interface.
NFR-2	Security	Only authorized users should be able to access and manage request records.
NFR-3	Reliability	The system should process and save requests without errors.
NFR-4	Performance	Book requests should be submitted and processed quickly.
NFR-5	Availability	The application should be available whenever users need to access it.
NFR-6	Scalability	The system should support an increasing number of book requests in the future.
